Billed as "the world's first festival of vintage carnival rides and carousels," this celebration returns to Governors Island with the aim of creating "a fairy-tale environment where New York's menagerie of communities can unite through music, arts and the pursuit of magic." We can't speak for the magic bit, but the event's producers have the music on lockdown, with the Soul Clap boys, Circoloco's DJ W!ld, Ilain Tapes maestro Dario Zenker, Arman Nafeei and ReSolute's Elon on deck duty.
